**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*Basis of presentation*

The Company’s unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

*Use of estimates*

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include the estimated useful lives of property and equipment. Actual results could differ from those estimates.

*Basic and Diluted Earnings Per Share*

Net income (loss) per common share is computed pursuant to ASC 260-10-45, *Earnings per Share—Overall—Other Presentation Matters*. Basic net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock and potentially outstanding shares of common stock during the period.

*Recently issued accounting pronouncements*

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

**NOTE 3 – GOING CONCERN**

The Company’s unaudited financial statements are prepared in accordance with generally accepted accounting principles applicable to a going concern. This contemplates the realization of assets and the liquidation of liabilities in the normal course of business. Currently, the Company does not have sufficient working capital, nor does it have operations or a source of revenue to cover its operating costs and allow it to continue as a going concern. The Company will be dependent upon the raising of additional capital through debt and/or equity financing in order to implement its business plan, or merge with an operating company. There can be no assurance that the Company will be successful in either situation in order to continue as a going concern. These unaudited financial statements do not include any adjustments relating to the recoverability and classification of recorded assets or the amounts of and classification of liabilities that might be necessary in the event the company cannot continue in existence. Accordingly, these factors raise substantial doubt as to the Company’s ability to continue as a going concern.
